TWO QUESTIONS · TWO SNAPSHOTS

Which AIRA Snapshot fits?

Both are two-week, fixed-fee assessments for companies too busy for a six-month consulting project and too careful to trust a vendor's sales pitch. Pick the one that matches the question you're being asked.

Published prices, fixed up front | **Results in two weeks** | **You keep the report** | **Nothing to sell you afterward**

AIRA READINESS

Readiness Snapshot

$3,500 fixed · 2 weeks

THE QUESTION

Is our data ready for AI?

USUALLY ASKED BY

CEOs, COOs, and contact center and sales leaders planning AI

THE TRIGGER

"We're paying for Copilot and nothing changed." "Where do we start?"

WHAT YOU GET

- Kickoff and up to 6 stakeholder interviews
- Data review of your 3 most important systems
- 90-minute leadership workshop to agree priorities
- Use cases ranked by value, effort and risk, with rough costs
- A "not yet" list: what we ruled out and why
- A shadow AI quick scan of tools staff already use
- One-page scorecard, 90-day plan and 60-minute readout

Fee credit: the full $3,500 counts toward an AIRA Readiness Assessment or a Risk Snapshot if you sign within 90 days.

AIRA RISK

Risk Snapshot

$7,500 fixed · 2 weeks

THE QUESTION

Can we prove our AI is under control?

USUALLY ASKED BY

CISOs, compliance and legal teams, and AI or SaaS vendors facing reviews

THE TRIGGER

A customer AI questionnaire, an insurance renewal, a board question

WHAT YOU GET

- AI inventory workshop, including tools staff use without approval
- Risk tiering of up to 10 systems
- One-page executive scorecard mapped to the NIST AI RMF
- Top 5 actions, with owners and dates
- A one-page AI governance summary you can attach to customer questionnaires and insurance renewals

Fee credit: the full $7,500 counts toward a Foundation or Standard Risk assessment if you sign within 90 days.

Not sure which fits? Start with Readiness. If you move to a Risk Snapshot within 90 days, the full $3,500 counts toward it. Turn the page for a quick guide.

QUICK GUIDE

Match the Snapshot to what you're hearing

IF THIS SOUNDS LIKE YOU	START WITH
"We bought AI tools and can't point to a result."	**Readiness Snapshot**
"We want an AI agent in the contact center but don't know if our data and knowledge base can support it."	**Readiness Snapshot**
"A customer sent us an AI security questionnaire and we have nothing to attach."	**Risk Snapshot**
"The board or our insurer is asking how our AI is governed."	**Risk Snapshot**
"Honestly, we're not sure."	**Readiness Snapshot**, then move to Risk with the full fee credited

How the two weeks run

READINESS SNAPSHOT

Days 1–3	**Listen.** Kickoff, stakeholder interviews and a shadow AI scan.
Days 3–7	**Check the data.** Sample records and integrations in your most important systems.
Day 8	**Prioritize.** Leadership workshop to rank use cases and agree the first one.
Days 9–10	**Report.** Scorecard, 90-day plan and executive readout.

RISK SNAPSHOT

Week 1	**Find it.** AI inventory workshop, including tools staff use without approval.
Week 1–2	**Tier it.** Risk tiering of up to 10 systems against the NIST AI RMF.
Week 2	**Act on it.** Top 5 actions with owners and dates, plus your one-page governance summary.
End of week 2	**Report.** Executive scorecard and readout.

What comes after

After Readiness: the AIRA Readiness Assessment ($12,500, 4 weeks), Contact Center AIRA (from $18,500) or Readiness Advisory ($3,000/month) while you build.

After Risk: the AI Vendor Trust Pack ($14,500), or Foundation, Standard and Comprehensive packages (from $24,500) built on the NIST AI RMF and ISO/IEC 42001.

What we don't do: we don't build, resell or take commissions on AI tools. Our recommendations aren't steering you toward a product we profit from, and you keep the report whether or not you work with us again.
